Fire extinguisher box with porthole, glass and lock

Ref: C001

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: "Yale" type with the same barrel.
- Oculus: in glass with 80mm in diameter.
- Glass: 340mm high and 160mm wide.
- Sticker: SI
- 4 holes on the back for fixing.

Options

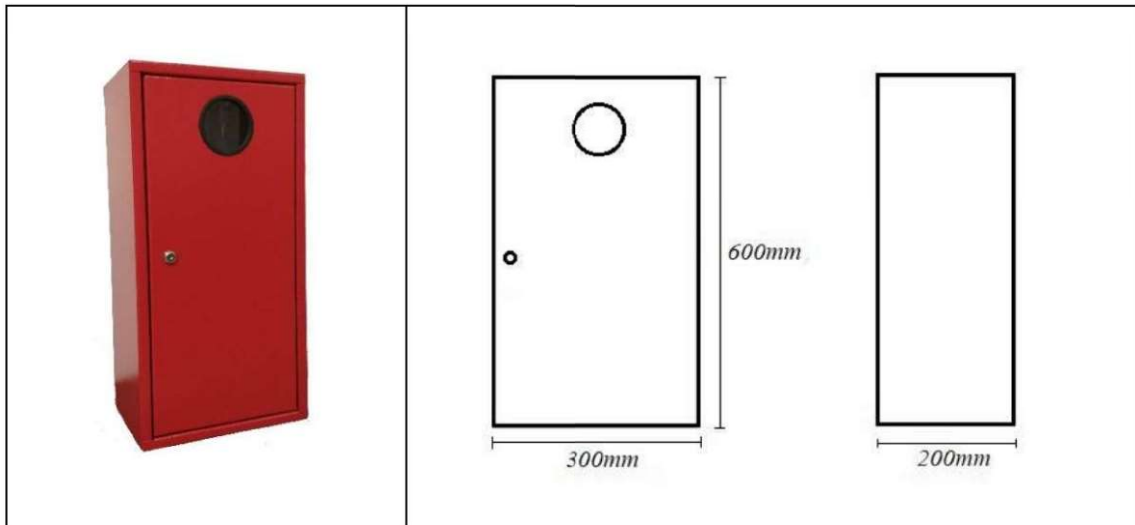

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Fire extinguisher box with porthole and lock

Ref: C002

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: "Yale" type with the same barrel.
- Oculus: in glass with 80mm in diameter.
- Sticker: SI
- 4 holes on the back for fixing.

Options

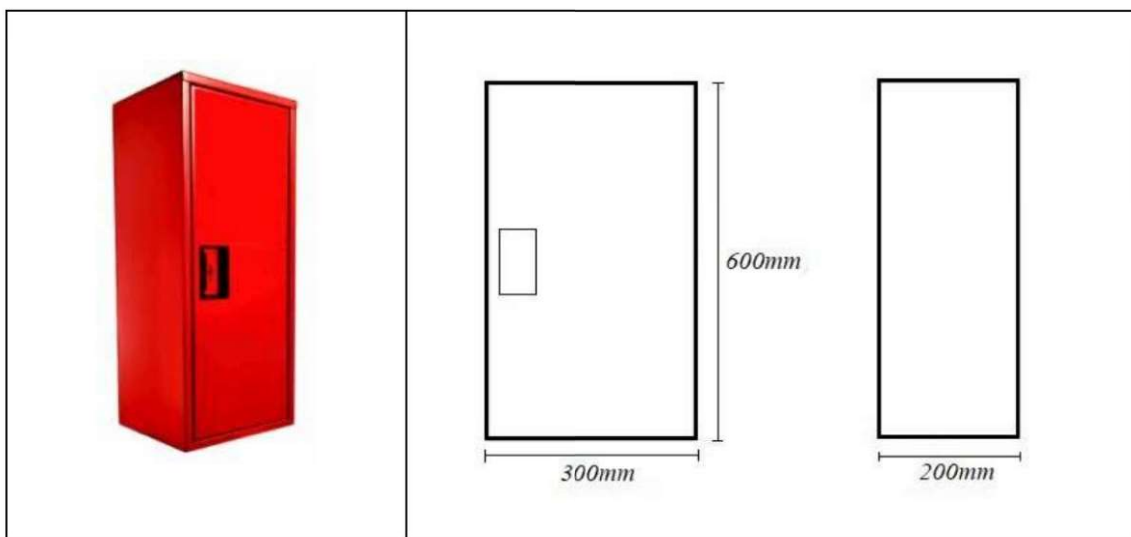

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Fire extinguisher box with blind door and quick lock

Ref: C003

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: Anti-panic quick lock.
- Sticker: SI
- 4 holes on the back for fixing.

Options

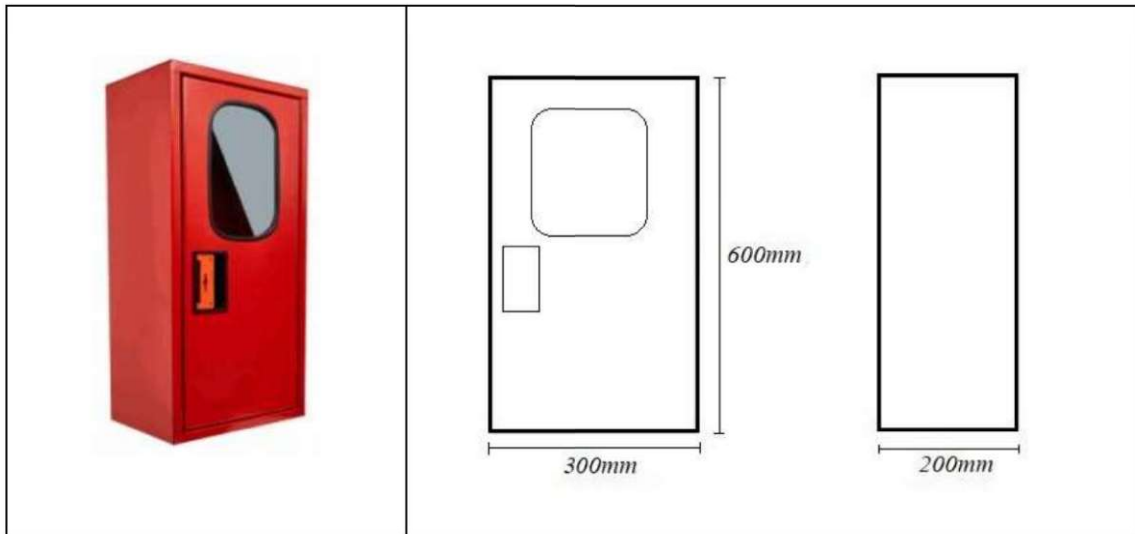

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Fire extinguisher box with display and quick lock

Ref: C004

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: Anti-panic quick lock.
- Viewfinder: in acrylic w/ 225mm high and 160mm wide.
- Sticker: SI
- 4 holes on the back for fixing.

Options

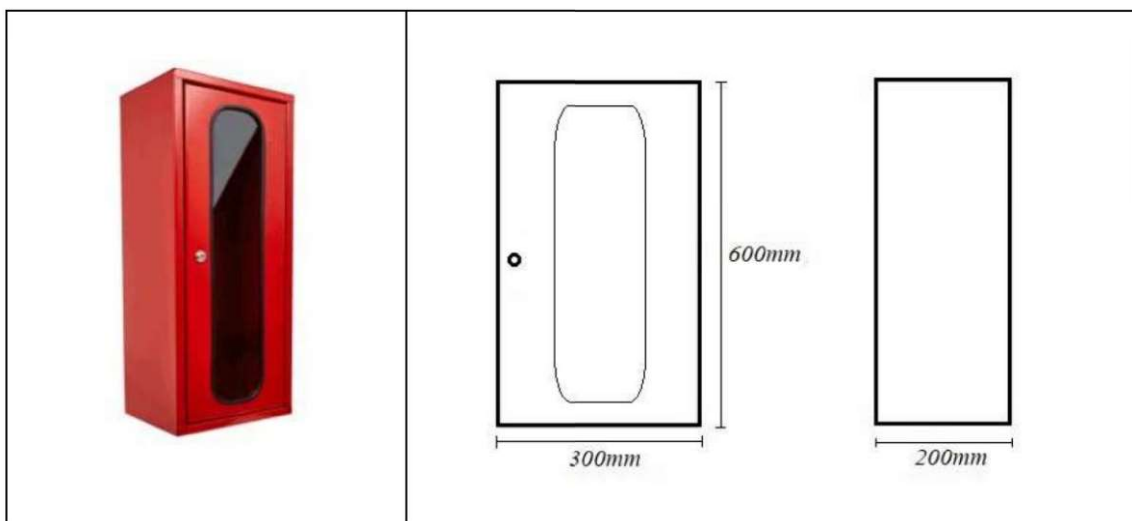

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Fire extinguisher box with display and lock

Ref: C005

Characteristics

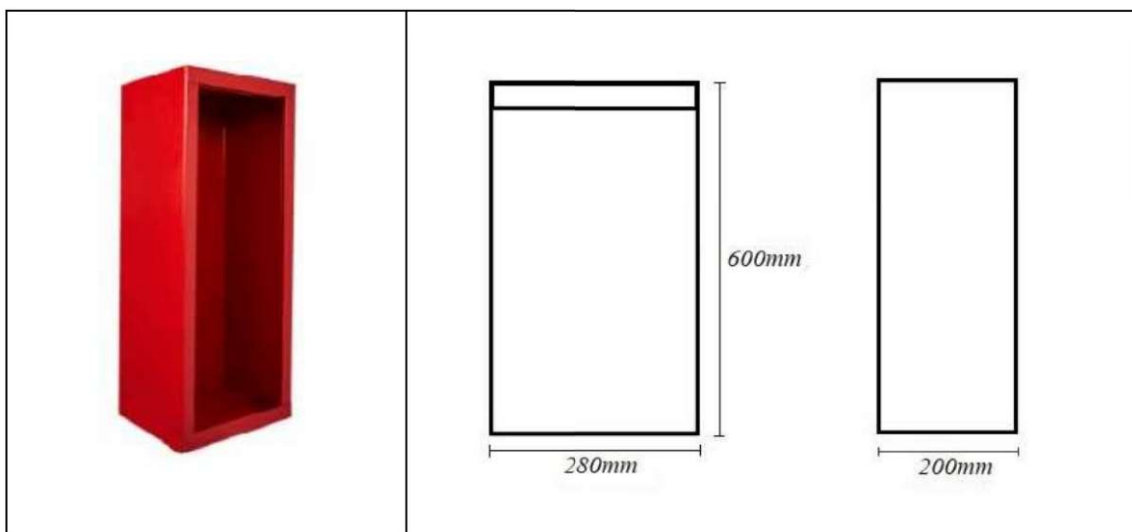

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: "Yale" type with the same barrel.
- Viewfinder: in acrylic w/ 510mm high and 125mm wide.
- Sticker: SI
- 4 holes on the back for fixing.

Options

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Characteristics

- Plate: 0.8mm;
- Painting: Polyester quality thermosetting electrostatic powder;
- Box w/ guides for introducing an acrylic display;
- 4 holes on the back for fixing.

options

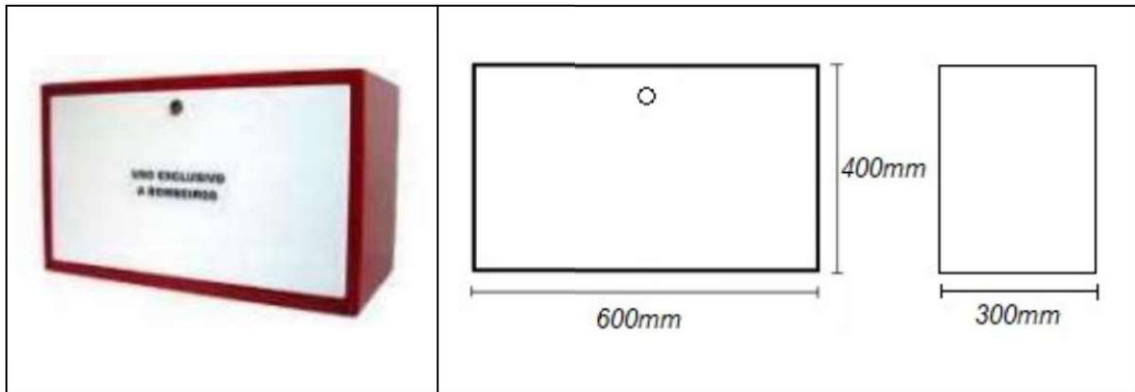

- With or without acrylic display;
- Painting in red, white, gray or black;
- Can be made of stainless steel;
- Other measures.

Distributed by:

Box Exclusive Use for Firefighters

Ref: C007

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: triangular type.
- Sticker: Exclusive Use for Firefighters
- 4 holes on the back for fixing.

Options

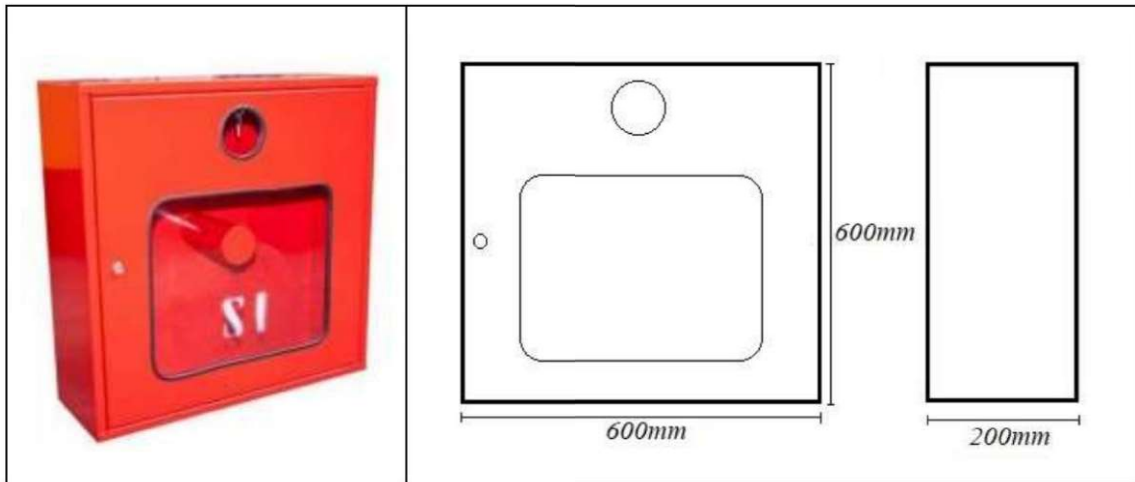

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Box for fixed station

Ref: C009

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: "Yale" type with the same barrel.
- Oculus: in glass with 80mm in diameter.
- Viewfinder: in glass w/ 322mm high and 385mm wide.
- Fixed support for hose.
- 4 holes on the back for fixing.

Options

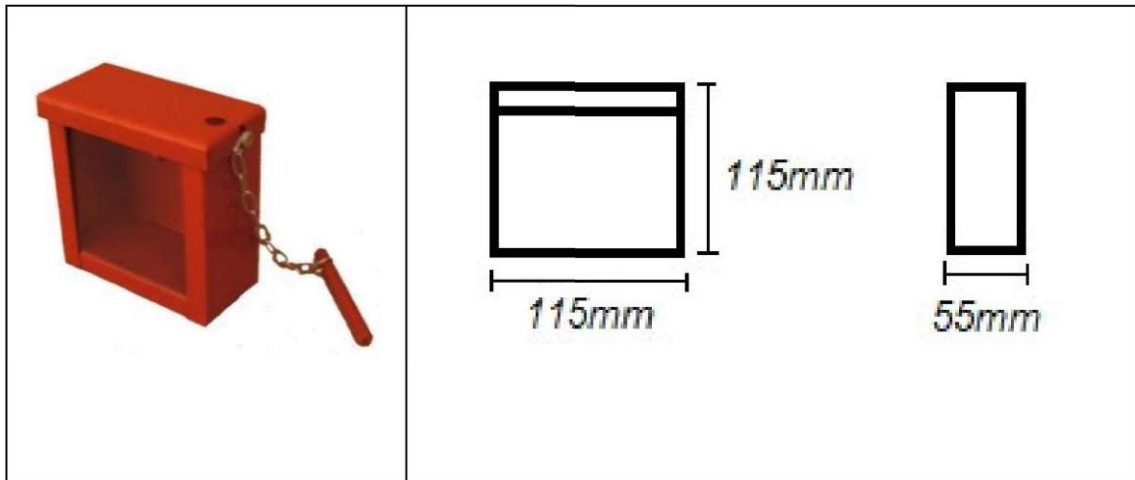

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- Other measures.

Distributed by:

Key ring box with hammer

Ref: C010

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Viewfinder: in glass w/ 95mm high and 100mm wide.
- Chain.
- Hammer.
- 2 holes on the back for fixing.

Options

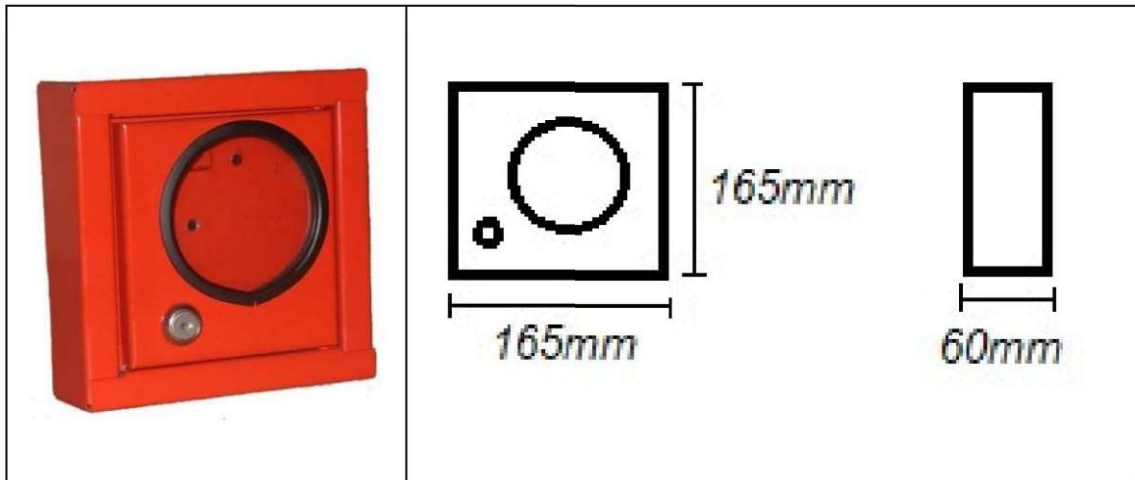

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Key ring box with door

Ref: C011

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Lock: "Yale" type with the same barrel.
- Oculus: in glass with 80mm in diameter.
- 2 holes on the back for fixing.

Options

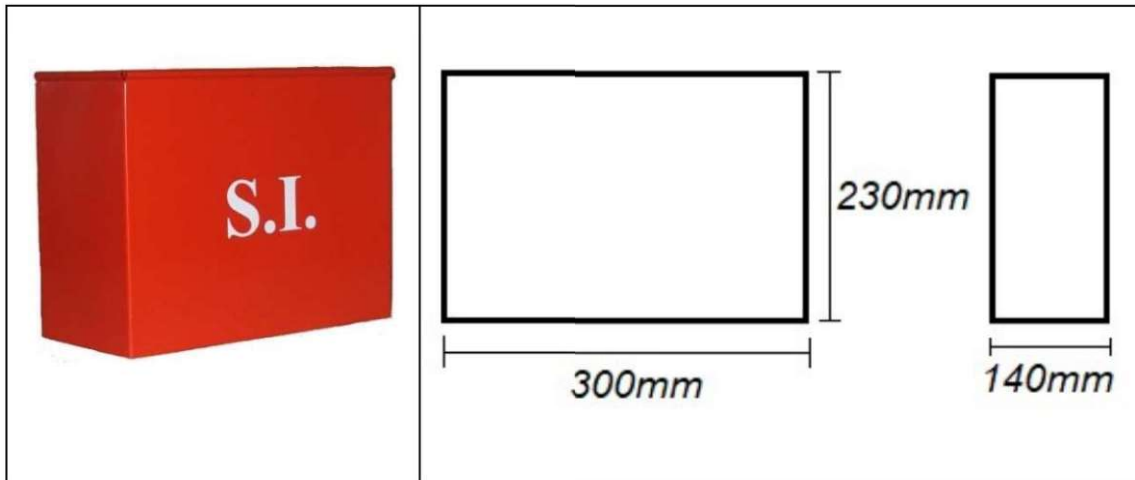

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

5 Lt rectangular bucket for sand

Ref: B001

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Sticker: SI
- 2 holes on the back for fixing.

Options

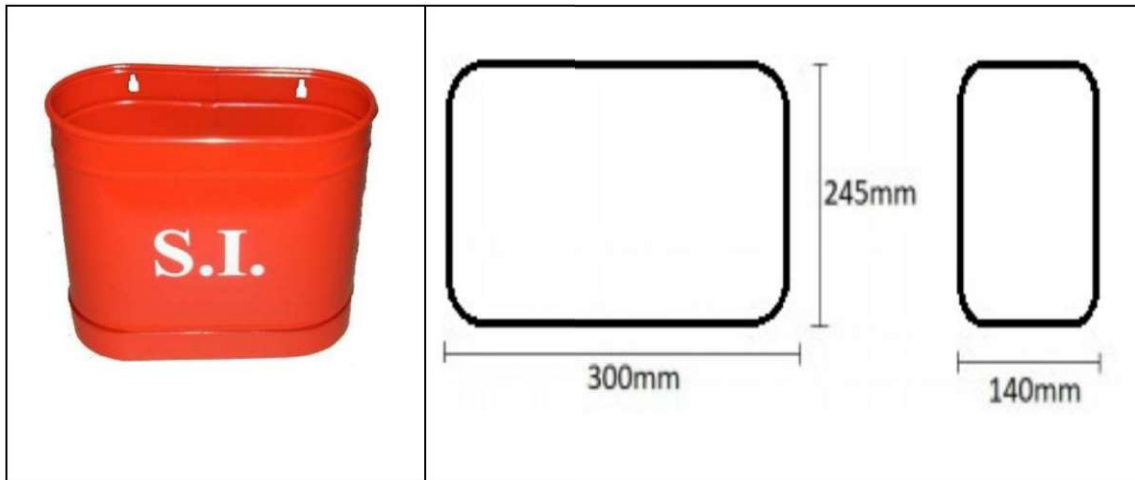

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

5 Lt oval bucket for sand

Ref: B002

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Sticker: SI
- 2 holes on the back for fixing.

Options

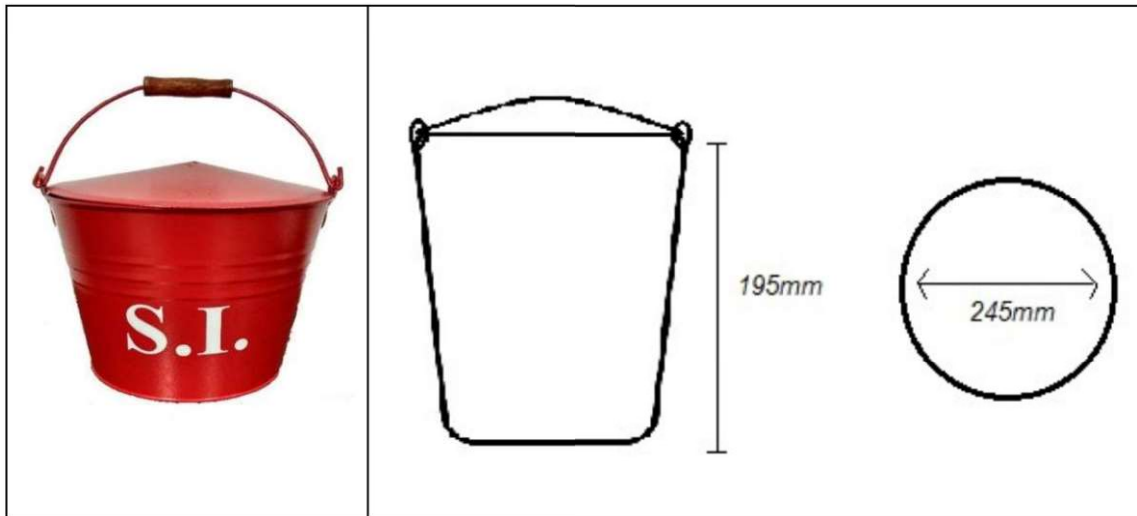

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Conical bucket 5 Lts for sand

Ref: B003

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- Sticker: SI

options

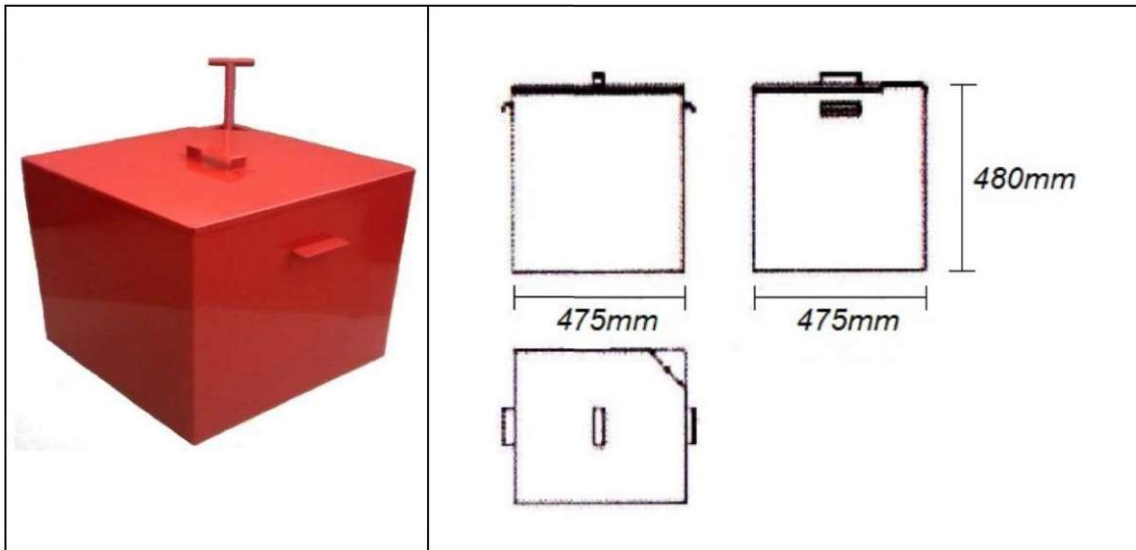

- Painting in red, white, gray or black;
- Can be made of stainless steel;
- With tamp.

Distributed by:

Bucket 100 Lts for sand

Ref: B004

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.

Options

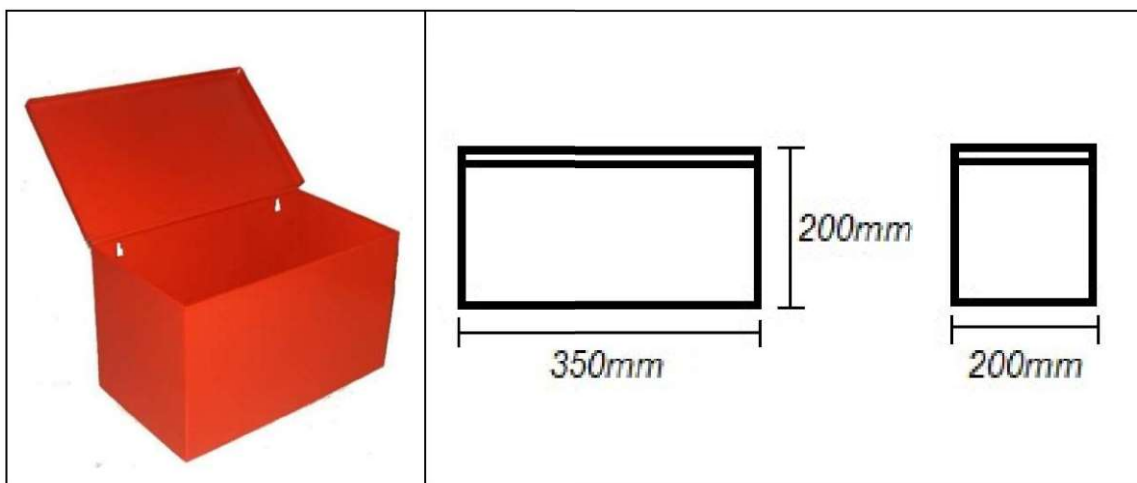

- Painting in red, white, gray or black.
- Can be made of stainless steel.
- With tamp.
- With shovel.

Distributed by:

bucket for waste

Ref: B006

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.
- 2 holes on the back for fixing.

Options

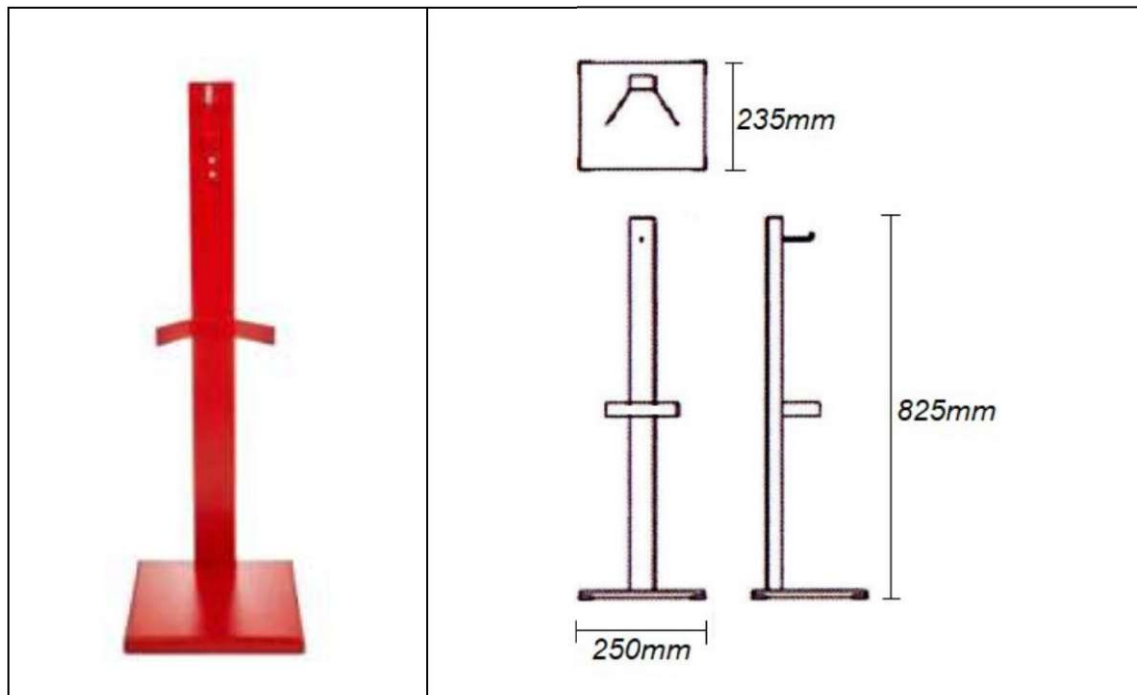

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Base support for fire extinguisher

Ref: S001

Characteristics

- Plate: column 0.8mm;
base 2mm.
- Painting: Polyester quality thermosetting electrostatic powder.

Options

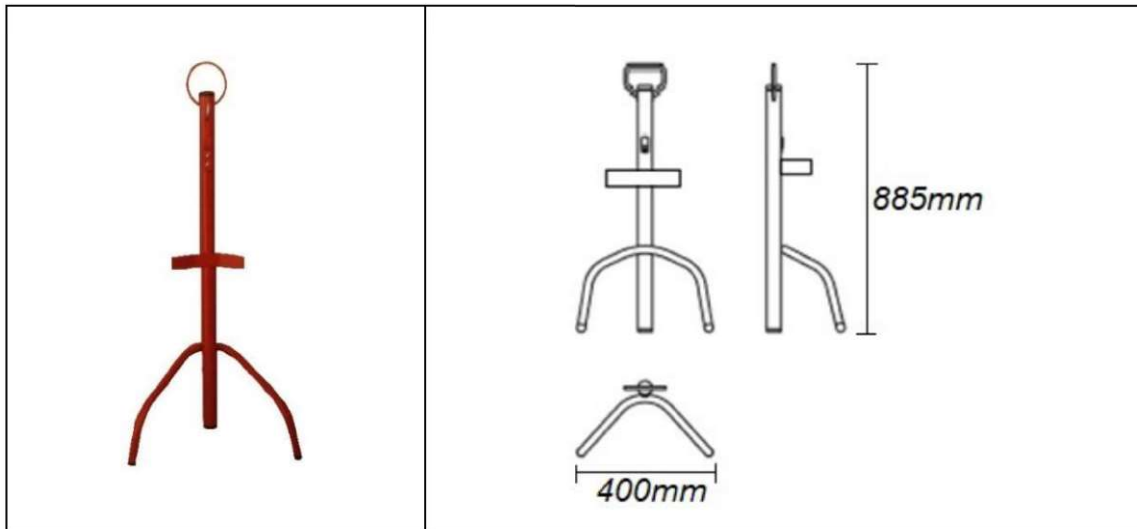

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Fire extinguisher tripod stand

Ref: S002

Characteristics

- Painting: Polyester quality thermosetting electrostatic powder.

Options

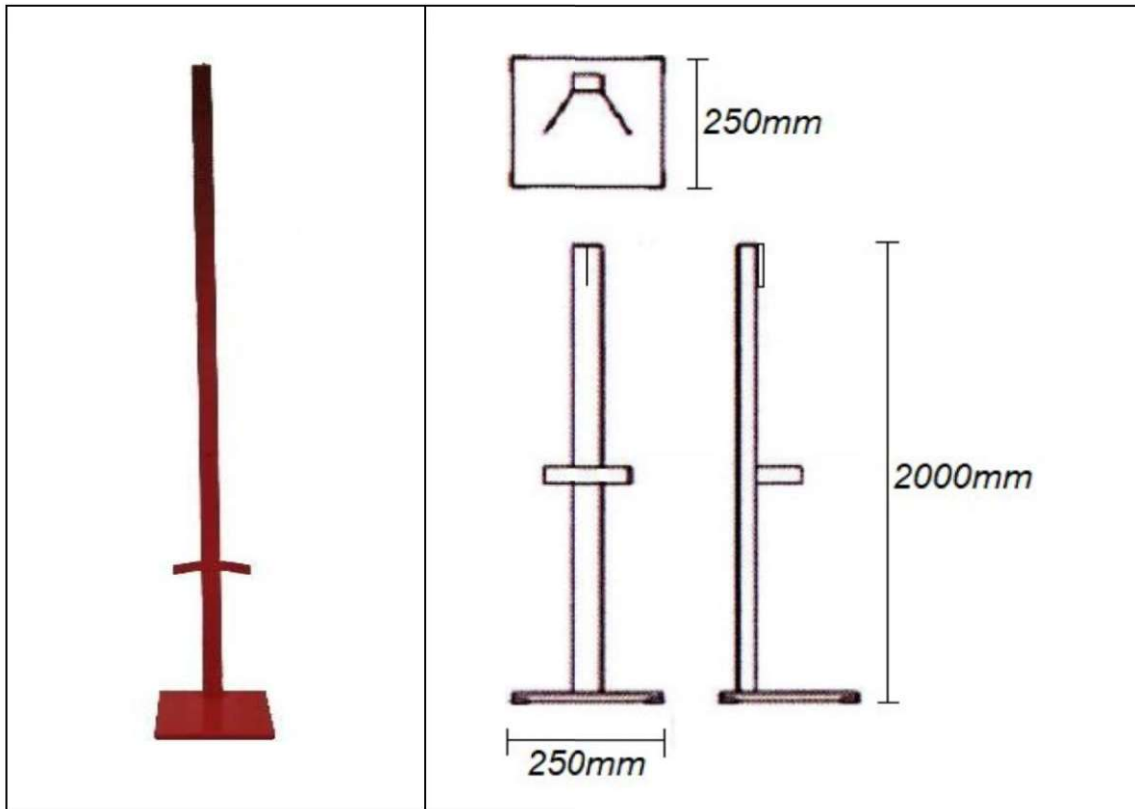

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

2m base support for fire extinguisher

Ref: S003

Characteristics

- **Painting:** Polyester quality thermosetting electrostatic powder.

Options

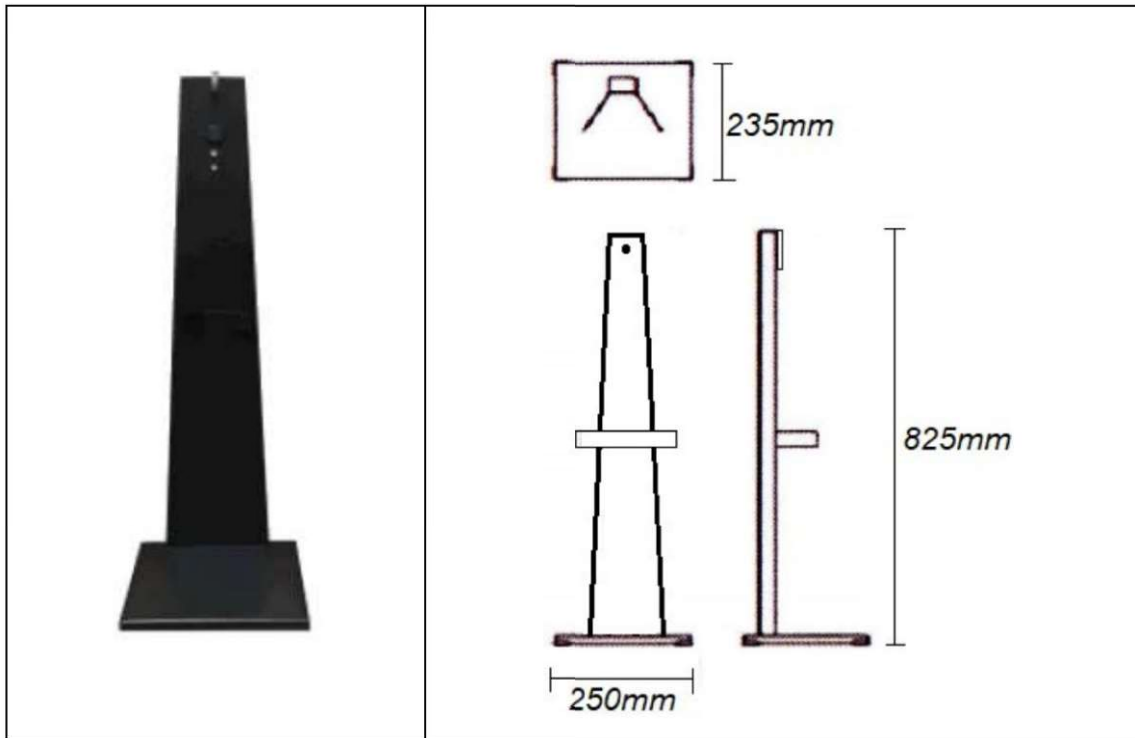

- **Painting** in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Pyramid base holder for fire extinguisher

Ref: S004

Characteristics

- Plate: column 0.8mm;
base 2mm.
- Painting: Polyester quality thermosetting electrostatic powder.

Options

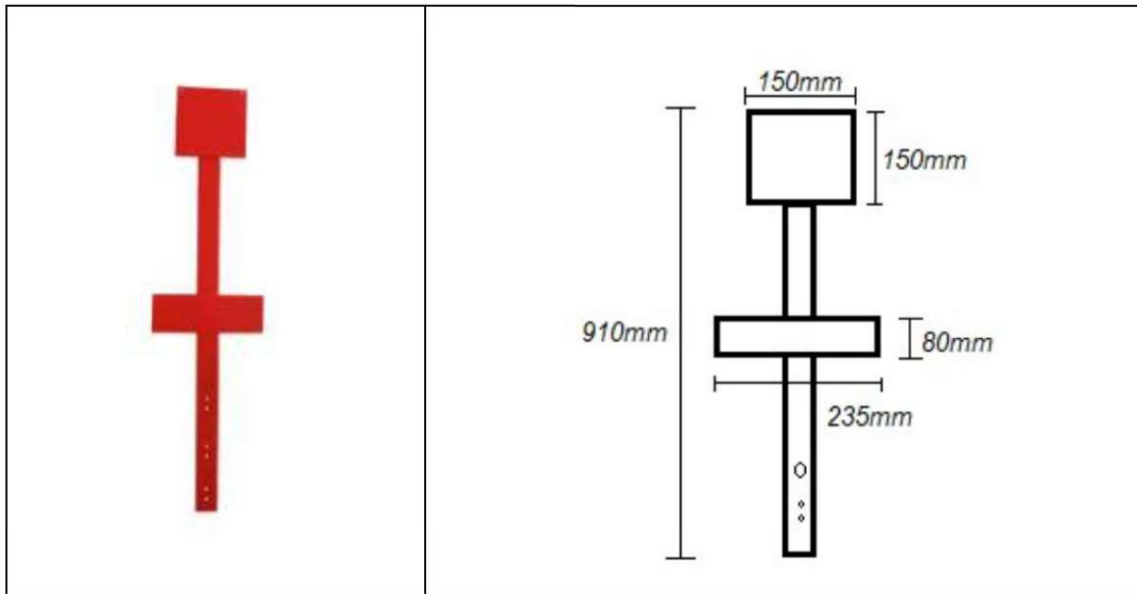

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Simple flag for support

Ref: BS001

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.

Options

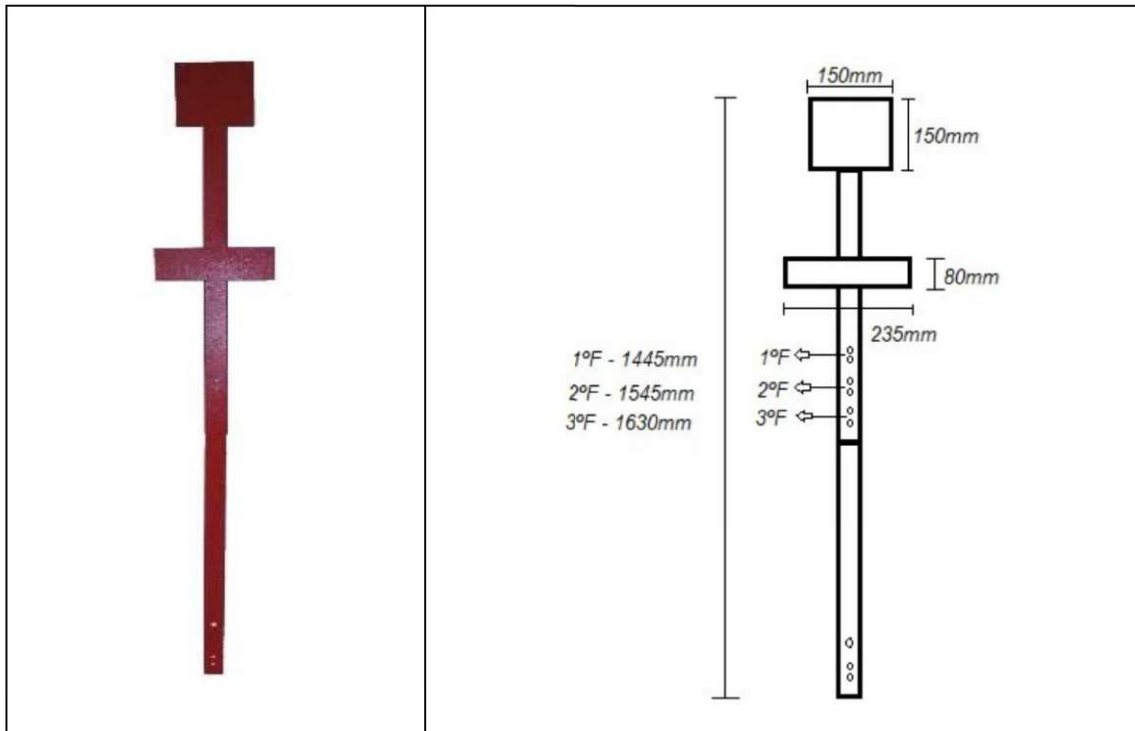

- Painting in red, white, gray or black.
- Can be made of stainless steel.

Distributed by:

Double signage flag for support

Ref: BD002

Characteristics

- Plate: 0.8mm.
- Painting: Polyester quality thermosetting electrostatic powder.

Options

- Painting in red, white, gray or black.
- Can be made of stainless steel.
