FR 1

The Flame Resistant range offers PPEs which resist flame, for work at height and welding environments. Due to aramid fiber webbings and Kevlar thread sewing they can resist a temperature of 371°. Recommended for welding works.

This harness has front and dorsal anchor points. It is adjustable in shoulders, chest and legs.

Norm	EN361, ISO 1502, ISO 9150
Size	Universal
Weight	1,4kg
Webbing width	44mm
Static resistance	23 kN
Lifetime (years)	10 of use + 1 of storage

Material	
Webbing	Aramid
Metal components	Steel
Thread	Kevlar
