POW AIRLITE

**SATURNO
BLACK TOP**

90414 00LA

**S3 SRC ESD HRO
DGUV 112-191
UNI EN ISO 20345:2012**

UPPER **SOCKKNIT** is a 3D fabric that uses jacquard-knit polyester yarns to ensure maximum durability. Water-repellent and highly breathable. Anti-fray, resistant to cuts, abrasion and tearing to guarantee maximum safety
KPU anti-abrasion scuff cap. **ATOP** closure in a central position for a much better and uniform fit from top to bottom to guarantee perfect comfort. **ANIMAL FREE** (no animal parts used).

LINING **PLASMAFEEL** - Lining in 3D fabric that keeps the foot constantly cool and dry thanks to the instantaneous absorption of sweat and its immediate dispersion outside of the shoe. Breathable, antibacterial, resistant to wear and abrasion.

INSOLE **ECO INSOLE** - Made from recycled materials. Thermoformed in dual-density polyurethane with a tear resistant multilayer fabric. High breathability and quick absorbing thanks also to a special puncturing in the forepart, for a foot that is always dry. Antistatic, antibacterial, anti fungus, the presence of activated carbon keeps the foot free from bad smells. Complete with shock-absorbing heel support to reduce impacts on the entire spine and arch support to ensure greater comfort

OUTSOLE **POW AIRLITE** - PU / RUBBER - BASF PUR Elastopan® polyurethane midsole, ensures maximum comfort and excellent impact absorption on any surface. Antistatic outsole in high-grip rubber, resistant up to 300 ° C (HRO certified), guarantees the highest levels of anti-slip. Resistant to wear, oils and hydrocarbons. Non marking sole. **AlveoSystem** - an anti-torsion system directly injected into the sole. In addition to making the sole lighter, it increases shock absorption performance and acts as a stabilizer on rough, uneven ground and on stairs. It does not deform and guarantees stability and comfort for the entire life of the shoe.

LAST The anatomical shape of the injected sole, unlike removable insoles, is inalterable for the entire lifetime of the shoe. The Anatomic sole, following the natural morphology of the foot, provides a natural support to all its points, ensuring maximum comfort

MIDSOLE **TEXON ENIGMA ZERO HT2** Non-metallic antistatic, flexible, anti-perforation fabric insole, built with several layers of high-tenacity fibres. It ensures perfect thermal insulation Compliant with: **EN 12568:2012; EN ISO 20344/345; CSA-Z195-14; ASTM F2413-18**

TOE CAP **CARBON CAP** is an exclusive carbon fiber toe cap. In addition to being lighter, it guarantees a wider fit and better balance of the shoe for superior comfort. It is Metal free and guarantees thermal insulation at extreme temperatures superior to aluminium or steel toe caps, thus maintaining a constant body temperature. Toe cap certified according to EN ISO 22568-1:2019 requirements

S.S.D. **SILVER STRIP DISCHARGE (SSD)**. Conductive cotton tape with silver threads, inside the upper and in direct contact with the foot. Anti-static device, it increases and stabilizes the dispersive capacity of the electrostatic charges throughout the life of the shoe.
